

3M 1182 Copper Foil Tape Double Sided Adhesive

Technical Data Sheet

3M 1182 Copper Foil Tape is a high quality, highly specialised grade of double sided adhesive copper tape designed for electro-magnetic interference (EMI) shielding. This grade is manufactured by 3M using a dead-soft copper foil backing coated on both sides with a pressure sensitive acrylic adhesive. This adhesive is highly specialised as it exhibits excellent electrical conductivity.

3M 1182 Copper Foil Tape is flame retardant and has a total thickness of 0.088mm (0.04mm of which is made up of the copper backing). It bonds well to most surfaces and substrates. The copper foil backing can be soldered and resists oxidation and discolouration.

Applications

- EMI Shielding
- Bonding surfaces; both electrically and physically
- Simultaneous grounding and fastening of equipment

swiftsupplies.com.au

View This Product

- Joining enclosures to conductive gaskets for EMI shielding purposes
- Creating a conductive path between surfaces and components

Property	Value
Backing	Dead-soft Copper Foil
Adhesive Type	Conductive Acrylic Pressure Sensitive Adhesive
Colour	Copper
Backing Thickness	0.04mm
Total Thickness	0.088mm
Breaking Strength ¹	44 N/10mm
Adhesion to Steel ¹	3.8 N/10mm
Electrical Resistance though the Adhesive ²	0.010 ohm
Flame Retardancy ³	Pass

1 Test Method ASTM D 1000

2 MIL-STD-202 Method 307 maintained at 5 psi (3.4 N/cm²) measured over 1 in² surface area. Conductive particles

in the adhesive provide the electrical path between the application surface and the foil backing. 3 UL Recognised for Flame Retardancy per UL 510, Product Category OANZ2, File E17385

Available Sizes

Standard Roll Widths and Length

- 6mm
- 9mm
- 18mm
- 21mm
- 12mm24mm
- 15mm

All rolls are 16.46 Mtrs long.

Custom sizes, lengths and request

We're always happy to help with special requirements. If you require die cut components or a special sized tape version of 3M 1182 Copper Foil Tape please do let us know. We'll do our very best to help in any way we can.
