

3M 2308 Performance Masking Tape is a general purpose grade of masking tape with good adhesion. This tape is manufactured from a crepe paper backing and a rubber based, pressure-sensitive adhesive that bonds well to most types of surfaces.

3M 2308 Masking Tape allows fast, easy application and instant adhesion. It resists curling or lifting and is highly conformable which lets you apply it around tight turns or bends with ease. The crepe paper backing resists paint bleed-through and has good hold-out properties.

3M 2308 Masking Tape has controlled unwind properties which makes it less prone to unwanted tearing as you take it off the roll. This also makes it suitable for use with paper dispensers. Despite this, 3M 2308 can be torn by hand. The tape is also sliver resistant and has been tested and found to meet the requirements of ASTM D 6123 / D 6123M-97.

Please note: This tape should not be left outdoors for prolonged periods as it may become very difficult to remove.

Applications

Typical applications for this general purpose grade of masking tape include:

- General purpose masking
- Sealing and bonding
- Bundling and identification of cables, leads and wires
- Other applications that require an economical pressure sensitive tape

Technical Details

Property	Value
Backing	Crepe Paper
Adhesive Type	Pressure Sensitive Rubber
Colour	Tan
Total Tape Thickness (ASTM D-3652)	0.13mm
Adhesion to Steel (ASTM D-3330)	38 N/100mm
Tensile Strength (ASTM D-3759)	385 N/100mm
Elongation at Break (ASTM D-3759)	10%
Maximum Temperature (Short-Term, up to 30 Minutes)	121°C
