# 3M 471 Vinyl Lane Marking Tape
Quick Reference Guide

Overview

A tough, abrasion resistant and long-lasting tape for marking out laneways, floor areas, colour coding and bunding. This tape has a good, strong rubber-based adhesive that sticks to most surfaces and is easy to apply.

Once in place, 471 Vinyl Tape resists abrasion and maintains its bright colouring overtime without fading. It can also be removed cleanly when required and doesn't leave behind too much adhesive residue.

Used for a variety of applications including...
- Marking out forklift passages and walkways.
- Identification of cables, leads and pipes.
- Cable splicing.
- Abrasion protection for cables and pipes.
- Marking safety areas or keep-clear zones.
- General decoration work.
- Sealing.
- Paint masking.

Custom Sizes of 471 Tape.

All the standard sizes of 471 Lane Marking Tape listed on the next page are cut to size using our slitting facilities.

This means that we can also offer custom width rolls to suit your exact needs. If you do need a width that isn't listed (say, 60mm) just let us know and we'll do our best to assist.

Unfortunately, length and thickness are set, and we can't offer any customization on these. Some custom colours are also available on request too.
