

5007 Class 2 Reflective Tape is an engineering grade adhesive reflective tape made from retro reflective sheeting. This tape features an acrylic adhesive on one side that bonds well to most surfaces and maintains this high bond strength over a long service life.

5007 Class 2 Reflective Tape is easy to apply and has excellent resistance to corrosion and solvents. It is highly visible in both direct sunlight and at night.

This tape meets the requirements of EN 12899-1 and ASTM D 4956.

Applications

- Work signs
- Identifying bollards, posts and other objects in dark areas (such as underground car parks)
- Vehicle marking and identification
- Marine marking and identification
- Traffic signs
- Drawing attention to potential hazards in commercial facilities
- Other areas where a potential hazard must be visibly marked out

Available Sizes, Forms and Styles

5007 Class 2 Reflective Tape Engineering Grade is available from Swift Supplies in the following sizes and colours:

Black/Yellow Striped

- 24mm Wide x 45 Metres Long
- 36mm Wide x 45 Metres Long
- 48mm Wide x 45 Metres Long

Red/Yellow Striped

- 24mm Wide x 45 Metres Long
- 36mm Wide x 45 Metres Long
- 48mm Wide x 45 Metres Long

Red/White Striped

- 24mm Wide x 45 Metres Long
- 36mm Wide x 45 Metres Long
- 48mm Wide x 45 Metres Long

Custom Sizes

Custom slit roll can be produced upon request. If your job demands a special sized roll of Class 2 Reflective Tape please do let us know and we'll be happy to arrange a quote.
