

## Overview

A Grade Industrial Felt is a premium grade of felt sheet that has a high-density construction and is exceptionally strong and hard wearing.

A Grade Felt is white in colour and manufactured with a minimum wool content of 70%.

This industrial felt sheet can be cut into precise shapes and will withstand abrasion, tearing and wear. It has good compatibility with most types of fluids and media and can tolerate temperatures up to 93°C.

Used for a variety of applications including...

- Bearing Seals.
- Polishing Pads.
- Lubricating Wicks.
- Seals for Brakes and Clutches.
- Heavy Duty Gaskets.
- Air Seals in Clothes Dryers and Heating Equipment.
- Anti-Vibration and Protective Mats.

## Key Specifications

Temperature Resistance	93°C
Colour	Off-White
Composition	>70% Wool
Density	0.34g/cm <sup>3</sup>

## Cut Sheets and By the Metres Sizes.

The table below lists all our standard sizes of A Grade Engineering Felt. To quickly find any on our website, just search for the SWM part number listed. Alternatively, browse the full range at [swiftsupplies.com.au/a-grade-engineering-felt-sheet](http://swiftsupplies.com.au/a-grade-engineering-felt-sheet)

Thickness	500mm Square Sheets	1500mm Wide, By the Metre.

## Custom A Grade Felt Gaskets, Seals, Sheets, Parts & Components.

We are always happy to assist with your custom A Grade Felt requirements. All of the cut sheets and strips listed on this page are produced using our facilities. We can also produce cut felt gaskets, washers and custom size sheets on request.

We have also produced adhesive-backed felt parts and all kinds of hybrid solutions that utilise engineering felt combined with one or more other materials to meet application requirements.

For more information on custom A Grade Felt components, please do contact us.
