

Adhering Grease Extra Strong Spray is a high-performance grade of spray on grease lubricant. Thanks to its high adhesive strength, this lubricating spray can be used on items that will permanently submerged. In these applications it will continue to provide excellent lubrication as well as protection against corrosion and attack from aggressive fluids and media.

Manufactured by Weicon in Germany, Adhering Grease Extra Strong is used around the world in the maritime, shipping and marine sectors. It is also used in wet plants for the lubrication of submerged pumps and other equipment constantly exposed to fluids.
