

# Anti-Seize Assembly Paste Quick Reference Guide

## Overview

Weicon Anti Seize Assembly Paste is a high quality lubricating compound. It is used to lubricate highly stressed metal parts to prevent seizure and reduce wear. It also protects against corrosion, oxidation and cold-welding and is widely used around the world in a large range of industries.

Manufactured in Europe, this quality grade of anti-seize is produced from a combination of finely ground, metallic, solid lubricants and a high quality synthetic oil mixture.

Anti Seize Assembly Paste is resistant to high pressures and is free of toxic heavy metals

Used for a variety of applications including...

- Lubrication and corrosion protection of highly stressed parts.
- Preventing metal components from seizing and protecting them from cold welding and stick-slip phenomena.
- Protecting surfaces from oxidation & wear.
- Lubricating bolts, screws and threaded connections that will be subjected to high levels of stress.

## Key Specifications

Colour	Anthracite
Temperature Rating	-180°C to +1200°C
Base Oil	Synthetic Oil
Density @ 20°C	1.16g/cm <sup>3</sup>
Coefficient of Friction	0,14µ

## Anti-Seize Assembly Paste Standard Sizes.

The tables below list all our standard sizes of Anti-Seize Standard. To quickly find any on our website, just search for the SWM part number listed. Alternatively, browse the full range at [swiftsupplies.com.au/anti-seize-high-tech-metal-free-pastes-range](http://swiftsupplies.com.au/anti-seize-high-tech-metal-free-pastes-range)

Part Number	Container Size	Container Type
<b>Special Order</b>	10gm	Syringe
<b>SWM000039B01V0002</b>	30gm	Pen
<b>Special Order</b>	85gm	Squeeze
<b>SWM000039B01V0002</b>	120gm	Brush Top
<b>SWM000151B01V0003</b>	200ml	Press Pack
<b>Special Order</b>	400gm	Cartridge
<b>Special order</b>	400ml	Aerosol

Part Number	Container Size	Container Type
<b>Special Order</b>	450gm	Can
<b>SWM000039B01V0004</b>	500gm	Brush Top
<b>Special Order</b>	1kg	Can
