

Overview

B Grade Industrial Felt is a premium grade of felt sheet that has a medium-to-high density construction.

Though not as hard/dense as our A Grade felt, B Grade felt is still tough, strong, and durable. B Grade Felt is white in colour and manufactured with a minimum wool content of 55%.

It has good compatibility with oils, greases and most lubricating fluids and can be accurately cut.

Used for a variety of applications including...

- Felt Oil Seals and Felt Gaskets.
- Machinery Parts.
- Lubricating Wicks.
- Protective Padding (Knee, Shoulder Pads).
- Bearing Housings.
- Saddle Making.
- Door and Window Seals.
- Acoustic Insulation.
- Filter Pads.

Key Specifications

Temperature Resistance	93°C
Colour	Off-White
Composition	>55% Wool
Density	0.18g/cm ³

Cut Sheets and By the Metres Sizes.

The table below lists all our standard sizes of B Grade Engineering Felt. To quickly find any on our website, just search for the SWM part number listed.
