

Weicon Bio-Cut is a high performance, industrial grade cutting oil. Made in Germany, this lubricant has been specially formulated for demanding, professional users.

It is suitable for use on all types of metal and can be used for drilling, turning, milling, grinding, sawing as well as reaming, metal forming and threading work.

Bio-Cut contains no mineral oil and is bio-degradable. It is self-classified as a water pollutant class 1 according to the stringent, German-standards.

Benefits

- Excellent lubrication for a high-quality thread and surface finish.
- Reduced wear on work pieces and longer tool life.
- Leaves no sticky residue behind on tooling.
- Good heat dissipation and excellent penetration into deep holes and slots.
- Biodegradable with a low environmental impact. Class 1 according to German Administrative Regulation Regarding Water Pollutants.

Technical Details

Colour	Colourless (Slightly Opaque)
Smell	Almost Odourless
Temperature Resistance	200°C
Minimum Shelf-Life	24 Months

Processing

Richly apply undiluted Bio-Cut to the work piece by brushing, dipping or spraying (e.g. with a Pressurised Air Can).

Storage

Bio-Cut should be kept closed in the original container. Preferably, store in a cool, dry and well aired place where it is protected from direct sunlight. Storage temperature should not exceed 50°C.

Available Sizes

Bio-Cut Cutting Oil is available from Swift Supplies in 250ml or 500ml Squeeze Bottles. 5L, 10L & 30L bulk containers are also available. Some of these sizes are special order items, please do contact us for availability.

Important
