

Chewing Gum Remover Spray is a specially developed technical spray manufactured by Weicon in Germany. It is sprayed directly onto old chewing gum. Once applied, it freezes the gum to break the adhesive bond between it and the surface. It does this in seconds to make removal easy.

By freezing the gum, Chewing Gum Remover Spray helps avoid the problem of residues or small remnants being left on the surface. Each can is also supplied with a plastic spatula.

Chewing Gum Remover Spray is used wherever old chewing gum is usually found. Around the world, it's used by bus companies, train operators, concert halls, theatres, schools and many other types of facilities.

Please Note: This product is not designed for removing chewing gum from human hair or skin and should not be sprayed onto the skin as there is a danger of hypothermia if direct contact is made.

Technical Details

Property	Value
Colour	Transparent
Scent	Almost Odourless
Shelf Life (Minimum)	24 Months

Instructions for Use

Hold can upright and do not shake before use. Spray on Chewing Gum Remover from a short distance until the freezing effect can be seen. Then, remove the residues from the surface using the supplied spatula. Clean textile coatings with a vacuum cleaner or a brush after use.

Caution: There is a danger of hypothermia in the event of direct contact between Freeze Spray and the skin.

Storage

Chewing Gum Remover Spray is supplied in a pressurised container. It should be stored in a cool, dark place and protected from direct sunlight. Do not expose to temperatures exceeding 50°C.

Available Sizes

Weicon Chewing Gum Remover Spray is available from Swift Supplies Online in 400ml cans.
