

Cockpit Spray is a specially formulated type of care and protection spray made for car and vehicle interiors. It creates a transparent, invisible film that forms a permanent, protective barrier on treated surfaces. This barrier is water-rejecting, repels dust and contamination and is very easy to look after.

Manufactured by Weicon in Germany, this spray is used on dull or weathered plastics and helps to bring back their original shine. It is also used on rubber surfaces where it helps to prevent them from becoming brittle and preserve their elasticity.

Application for Cockpit Spray

- Car, truck, train and boat dashboards
- Lubricating and protecting rubber boot and window seals
- Protecting the synthetic leather on car roofs
- Protecting and enhancing the appearance of wooden panels
- Protecting chrome parts and surfaces
- Reducing friction and eliminating squeaks on moving parts in car interiors
- Lubricating seat belts and seat guides
- Lubricating and protecting moving parts of sunroofs
- Protecting and lubricating parts for window guides and door locks
- Protecting parts in areas where greasy soiling is likely to occur

Technical Details

Property	Value
Colour	Transparent
Scent	Citrus
Shelf Life (Minimum)	24 Months

Instructions for Use

Shake the can before using. Spray on sparingly and immediately wipe with a clean, dry cloth to spread across the desired area.

Storage

Cockpit Spray is supplied in a pressurised container. It should be stored in a cool, dark place and protected from direct sunlight. Do not expose to temperatures exceeding 50°C.

Available Sizes

Weicon Cockpit Spray is available from Swift Supplies Online in 400ml cans.
