

Overview

Fibreglass Ladder Tape is a special kind of heat resistant tape used for making high temperature seals and gaskets.

This tape is almost identical to our Fibreglass Exhaust Wrap Tape with the exception of its construction. Yarns have been purposefully left out of the ladder tape so that bolts can be fit through easily.

Used for a variety of applications including...

- Sealing and insulating oven doors.
- High temperature tank lid seals.
- Stress relieving and lagging.
- Hose and pipe lagging to protect from heat sources or to prevent heat loss.
- High temperature gasketing.
- Furnace sealing and door insulating.
- General insulation work.

Key Specifications

Colour	White
Adhesive	None
Temperature Rating	550°C
Abrasion Resistance	Avg.
Strength Retention @ 400°C	50%

Fibreglass Ladder Tape Sizes.

The tables below list all our standard sizes of Fibreglass Ladder Tape. To quickly find any on our website, just search for the SWM part number listed. Alternatively, browse the full range at swiftsupplies.com.au/fibreglass-ladder-high-temp-gasket-tape-500c

Part Number	Thickness	Width	Roll Length
SWM000215B01V0001	3mm	25mm	30 Metres
SWM000215B01V0002	3mm	40mm	30 Metres
SWM000215B01V0003	3mm	50mm	30 Metres
SWM000215B01V0004	3mm	75mm	30 Metres
SWM000215B01V0005	3mm	100mm	30 Metres
SWM000215B01V0006	6mm	50mm	30 Metres
