

Industrial Cleaner

11215500

Industrial Cleaner 500 ml

Powerful special cleaner with high yield

WEICON Industrial Cleaner is suitable for universal use. It cleans, degreases and evaporates without leaving any residues. The cleaner removes grease, oil, soot and other soilings and residues. It cleans many surfaces fast and easily, such as metals, glass and many plastics.

Industrial Cleaner can be used in many different areas. It is even suitable for sensitive surfaces, such as plastics, rubber materials or powder-coated metal pieces.

The cleaner operates with a highly compressed propellant. Therefore, it has a very high active ingredient content of 95 %. This means that the cleaner is very economical, so one container covers a significantly higher number of applications.

Technical Data

Odour	solvent
Features	high performance, 95 % active ingredient content
Storage stability	24 months
Colour	colourless

Processing

Spray generously onto the part to be cleaned and allow to take effect; wipe with clean cloth, if required. Repeat, if necessary.

Storage

Pressurised container. Protect from direct sunlight and temperatures above +50 °C.

Safety and health

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
