

Overview

Mild Steel Shim is a cost-effective and long lasting option for the production of spacers, washers, metallic gaskets, mounts and components.

Sometimes known as low carbon steel, our mild steel shim stock is cold rolled and easy to form and fabricate. It can be cut, stamped, bored, drilled, sheared or milled into almost any shape and exhibits minimum burring or distortion.

Used for a variety of applications including...

- Spacing shims
- Steel washers and gaskets
- Drawing or forming
- Car and truck axel shims
- Tool and machinery alignment

Mild Steel Shim Standard Sizes.

The tables below list all our standard sizes of Mild Steel Shim. To quickly find any on our website, just search for the SWM part number listed. Alternatively, browse the full range at swiftsupplies.com.au/Mild-Steel-Shim-Range

Thickness Metric	Thickness Imperial	300mm Square Piece Part Number	300mm Wide, Per Metre Part Number
0.05mm	0.002"	SWM000061P02V0001	SWM000068B01V0001
0.08mm	0.003"	SWM000061P02V0002	SWM000068B01V0002
