

Mould Release Agent Spray is a spray-on lubricant that prevents adhesion. This high quality technical spray is manufactured in Germany by Weicon and is made with a precision combination of high quality active ingredients. The result is a spray that has a high sliding effect and offer excellent lubrication and consistent performance.

Mould Release Agent Spray can be used on metal or plastic. Anytime you need to prevent adhesion to either a tool or a mould, it has potential as a solution. It is often used in plastic processing processes such as spraying, pressing or vacuum forming though it is also used in epoxy casting and as a release agent on tools.
