

Overview

3M 3930 High Intensity Prismatic Reflective Tape is a very high quality grade of adhesive reflective tape designed for use on traffic control signs, railway signage, vehicle identifiers and delineators that are vertically orientated in service.

This premium grade reflective tape is manufactured from non-metalized reflective sheeting which is coated on one side with a pressure sensitive adhesive.

3M 3930 High Intensity Prismatic Reflective Tape retains its reflectivity when wet and performs in all weather conditions. This tape is highly durable and provides long lasting colour contrast, legibility, brightness, and reflectivity.

It is highly visible at night and has a tough surface finish that resists scuffs and scratches. 3M 3930 Series meets or exceeds the requirements of Australian and New Standards 1906.1.

Used for a variety of applications including...

- Identifying bollards, posts and other objects in underground car parks.
- Identifying potential dangers around the home.
- Vehicle marking and identification.
- Marine marking and identification.
- Traffic signs.
- Work signs.
- Drawing attention to potential head hazards in commercial facilities.
- Anywhere a potential hazard must be visibly marked out.

Custom Sizes of 3930 Class 1 Reflective Tape.

All the standard sizes of #3930 Reflective Tape listed on the next page are cut to size using our slitting facilities.

This means that we can also offer custom width rolls to suit your exact needs. If you do need a width that is not listed (say, 60mm) just let us know and we'll do our best to assist.
