

Automatic Cable Stripper No. 7 F Flat Magic Quick Reference Guide

Overview

Our Automatic Cable Stripper No. 7 Flat Magic is a professional grade cable & wire stripper that is fast, accurate and versatile.

Designed and manufactured in Germany, this quality electrical tool can precisely strip the insulation from flat, multi-core cables as well as a wide range of round wires and cables.

Amongst its many features, this stripper automatically adjusts to the cable size used (no need for setting it when working with different cables), can handle a variety of cable types and can be easily adjusted to strip back different lengths of insulation (8mm to 24mm range).

In addition, our No. 7 Flat Magic Stripper also features an adjustment switch for changing the resistance of the action (useful when working with harder insulation sheathing) and an integrated side cutter.

Key Specifications

| | |
|--------------------------------|---|
| Cable Types | Fine Wired and Solid Conductors |
| Size Range(s) | Flat Cables: 0.75mm ² to 4mm ² Flexible Cables: 0.5mm ² to 16mm ² Solid Cables: 0.5mm ² to 10mm ² |
| Inner Blade | Replaceable |
| Additional Features / Benefits | Side Cutter, Cuts up to 3mm Ø Adjustable Length Scale. Adjustable Force. |
