

Brake Cleaner Spray

Quick Reference Guide

Overview

Our Brake Cleaner Spray is a high-powered cleaning and degreasing agent developed especially for the automotive sector.

Despite its' name and origins, this cleaning spray has proven itself to be versatile and effective enough to be widely used in a number of other industries as well as home workshops and garages all over the world.

Brake Cleaner Spray quickly and effortlessly breaks down dirt, oils, greases and grime and cleans and degreases surfaces.

Brake Cleaner can be used on all kinds of brakes and brake parts (including drum and disc brakes, brake pads, brake blocks, cylinders, springs and bushings), clutches (clutch linings and components) and on various engine parts (including carburettors, fuel and oil pumps and gears).
