

Citrus Cleaner Spray

Quick Reference Guide

Overview

Citrus Cleaner Spray is a universal cleaning agent manufactured from alcohol & citrus peel extracts. Widely used in industry, trades and the DIY/Hobby sectors, this professional-grade spray offers outstanding versatility in both the range of materials it can be used on, and the type of contaminants it can clean.

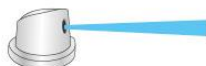

Citrus Cleaner is widely used on metal, plastic, glass, ceramic as well as painted or lacquered surfaces (though we suggest a trial on these last types as each coating is slightly different). It is fast acting and very easy to use as it effectively cleans and removes adhesive residues, contamination from oils and greases, resin, tar, lubricants and rubber residues.

The high alcohol content in Weicon Citrus Cleaner ensures that this all-purpose cleaning spray doesn't just clean, but disinfects surfaces (it should not be used on hands or skin).

Key Specifications

Colour	Transparent / Clear
Smell	Citrus
