

Cleaner Spray S

Quick Reference Guide

Overview

Cleaner Spray S is an extremely powerful, industrial-grade cleaner and degreaser.

Manufactured by Weicon in Germany and is trusted around the world for demanding cleaning work.

Cleaner Spray S can be used on all kinds of metals as well as glass, ceramics and other hearty surfaces like stone and masonry. It is able to be used on many types of plastic (such as PVC, acrylic and polystyrene), but a test is suggested first to make sure it will not damage the surface of more sensitive types.

Cleaner S is widely used for cleaning and degreasing before priming, bonding or painting and is also used for cleaning machine parts and other greasy surfaces. It effectively cleans oils, greases and even gummy adhesive residues.
