

Overview

Conafi General Purpose Gasket Sheet is an economical grade of compressed non-asbestos fibre (CNAF) gasket material designed for maximum versatility.

It is produced from a combination of mineral and aramid fibres that are bound together with an NBR rubber binder.

Conafi is widely used in industry and, thanks to its versatility and all-round performance capabilities, is also well suited to several automotive, marine and domestic applications.

These include gaskets for pumps, tanks, flanges and many other applications where various oils, chemicals, gas, salts, alkalis, or water needs to be sealed.

Conafi has been widely tested and recognised by a number of international organisations including Germanischer Lloyd, DVGW, KTW and INIG.

Custom Sizes of Conafi Gasket Sheets and Cut Gaskets.

All the sizes of Conafi Gasket material listed on the next page are cut to size using our gasket cutting facilities (full sheets are larger still).

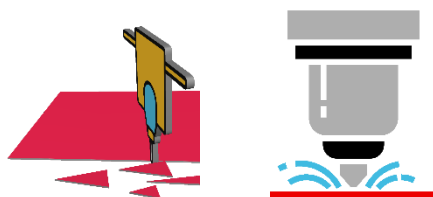

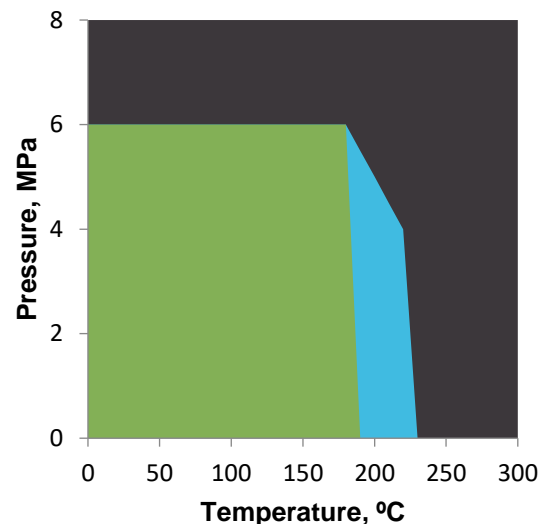

This means that we can also offer custom sheet sizes to suit your exact needs. If you do need a specific sheet size, just let us know and we'll do our best to assist.

We are also pleased to offer a complete range of Conafi gaskets. Many of these are listed on our website for all types of common flanges. Fully customized gaskets and washers are also available upon request.
