

Overview

Fast Cleaner Spray can be used for removing contamination, cleaning away of non-cured adhesive residues and preparing (cleaning and degreasing) surfaces that are to be bonded or sealed. It is also an ideal surface preparation agent for cleaning surfaces that will be protected with one of the Weicon Corrosion Protection sprays.

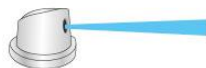

Fast Cleaner is pH neutral and colourless. It can be used on all kinds of metal, glass, ceramics and most rubbers or plastics.

Manufactured by Weicon in Germany, Fast Cleaner Spray carries NSF K1 and K3 classification as a solvent cleaner used in many sensitive applications in the food, beverage, cosmetic and pharmaceutical industries. It is a transparent cleaning spray that will withstand temperatures between -10°C and +50°C.

Key Specifications
