

## Overview

Weicon Flex 310 M Classic Universal Sealant is a high quality, German engineered and manufactured, grade of elastic adhesive that remains permanently elastic after curing.

It creates strong bonds and has outstanding resistance to ageing and UV. This MS polymer based adhesive is also completely free of silicones, solvents, halogens and isocyanate.

Flex 310 M Classic Universal Adhesive is ISEGA certified for use as an adhesive in food technologies and is both fresh water and salt water resistant.

This high quality, 1-part sealant bonds well to a wide range of materials including stone, glass, wood, ceramic, metals and many plastics.

Typical applications include...

- Tank sealing, construction and repairs.
- Electrical repairs.
- Sealing around light fittings.
- Shop fitting and displays.
- Plastic processing.
- Automotive, aerospace and marine interior work.
- Boat and yacht construction.
- Heating, air conditioning and ventilation work.
- Metal construction.
- Anywhere silicone adhesives are not suitable or permitted.

## Key Specifications

Basis	1 Part MS Polymer
Viscosity	Pasty
Density	1.44 g/cm <sup>3</sup>
Skin-Over	25 Minutes
Hardness	42 Shore A
Elongation	650%
Max. Movement	15%
Continuous Temp.	-40°C to +90°C

## Flex 310 M Classic Standard Colours.

The table below lists all our standard sizes of Weicon Flex 310 Classic. To quickly find any on our website, just search for the SWM part number listed.
