

# Flex 310M Crystal Clear Adhesive Sealant Quick Reference Guide

## Overview

Weicon Flex 310 M Crystal Clear Sealant is a high quality, German engineered and manufactured, grade of elastic adhesive that is completely transparent after curing.

This adhesive and sealant creates is completely free of silicone, solvents, halogens and isocyanate and creates strong bonds to a range of materials.

Flex 310 M Crystal Clear Sealant is UV resistant and compatible with both fresh and salt water. It can be used indoors and outdoors and has also been certified by ISEGA as an adhesive for food technologies.

It is crystal clear after curing and ideal for creating elastic joints where the adhesive should not or must not be visible.

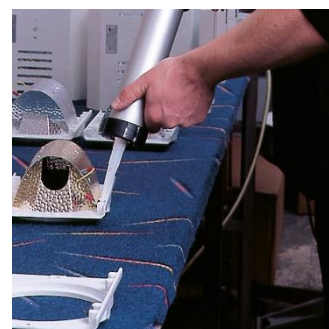

Typical applications include...

- Tank sealing, construction and repairs.
- Electrical repairs.
- Sealing around light fittings.
- Shop fitting and displays.
- Plastic processing.
- Automotive, aerospace and marine interior work.
- Mounting clear plastic panels.
- Heating, air conditioning and ventilation work.
- Metal construction.
- Anywhere silicone adhesives are not suitable or permitted.

## Key Specifications

Basis	1 Part MS Polymer
Viscosity	Pasty
Density	1.06 g/cm <sup>3</sup>
Skin-Over	10 Minutes
Hardness	40 Shore A
Elongation	300%
Max. Movement	20%
Continuous Temp.	-40°C to +90°C

## Flex 310 M Crystal Information.

The table below lists all our standard sizes of Weicon Flex 310 Crystal. To quickly find any on our website, just search for the SWM part number listed.
