

Overview

Gasket Maker is a special type of adhesive sealant manufactured by Weicon in Germany.

Available in either Black or Red, this high-quality room-temperature vulcanising (RTV) adhesive cures at room temperature. It can be applied directly to the sealing face and will form a good, long-lasting seal once the two faces are joined.

This industrial grade silicone features...

- High temperature resistance, up to 280°C.
- Sticks to most materials, incl. steel, aluminium, glass, ceramic and more.
- Permanently elastic to withstand vibration and shrinkage / expansion whilst maintaining adhesion and seal integrity.

- Compatible with a range of fluids.

Typical applications include...

- Sealing of pumps and tanks in the automotive sector.
- As a liquid gasket on boat motors and components.
- For sealing industrial flanges and ducts.
- Sealing compressors.
- In the HVAC industry for urgent site repairs.

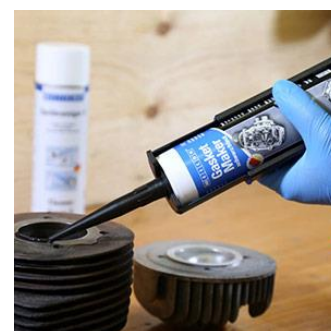

Key Specifications

Colour	Red	Black
Basis	One Part Acetate Silicone	
Viscosity	Pasty	
Density	1.28g/cm ³	1.06g/cm ³
Skin-Over	12 Minutes	7 Minutes
Hardness	35 Shore A	30 Shore A
Elongation	500%	
Max. Movement	15%	
Continuous Temp.	-50°C to +280°C
