

Mould Cleaner Spray

Quick Reference Guide

Overview

Our Mould Cleaner Spray is a fast acting and highly effective option for cleaning moulds after they have been used. This powerful spray cleans away waxes, silicones and oils as well as uncured urethane residues.

Mould Cleaner is manufactured by Weicon in Germany and is based on highly active organic solvents. It can be used on all kinds of metal moulds and most plastics; we just suggest doing a test first to make sure it doesn't degrade the surface.

Mould Cleaner Spray can be sprayed in all direction (including upwards) and has an extension nozzle included with each can to make cleaning of hard to reach areas easier.

Key Specifications

Colour	Transparent / Clear
Smell	Citrus
