

Overview

PTFE Coated Glass Fabric is a smooth, very flexible cloth manufactured from fibreglass cloth that is coated on both sides with a smooth, PTFE finish.

The result is a high-quality fabric with a wide variety of uses and all-around capabilities. It has excellent chemical resistance, is non-stick and abrasion resistant with good strength.

Typical applications include:

- Cooking and Baking Oven Liners.
- As a Reusable Release Film for Laminating Presses.
- Chemical Resistant Curtains & Protective Barriers.
- The Manufacture of Expansion Joints and Bellows.
- Blister Pack Die Covers.
- Covering the Sealing Surface on Polyethylene Bag-Making Equipment.
- High Temp, Chemical Resistant Gaskets.
- Jacket for Flanges, Pumps and Other Equipment.
- As an Outer Protective Shield for Insulation Blankets and Pipe Insulation.
- In Electrical Harness Assembly.
- As a Non-Stick Surface for Paints, Adhesive and Food Products.

Key Specifications

Colour	Brown
Adhesive	None
Temperature Rating	-72° to +260°C
UR Resistance	Excellent
Water Repellent	Yes

PTFE Coated Glass Fabric – Non-Adhesive Sizes.

The table below lists all our standard sizes of Non-Adhesive PTFE Cloth. They are all available by the metre. To quickly find any on our website, just search for the SWM part number listed.
