

Overview

Plastic Cleaner Spray is a special cleaner that has been developed for use on sensitive surfaces and materials. It is used on plastics, powder-coated metal, rubbers and lacquered surfaces that other cleaners may damage. On these surfaces, it is gentle enough to not damage the material, yet sacrifices nothing when it comes to cleaning power.

Plastic Cleaner effectively cleans and degreases before evaporating so as not to leave behind any residues. This high-quality cleaner is widely used around the world for cleaning and degreasing PVC, Plexiglas, polystyrene, linoleum and more.

When preparing plastic or sensitive rubber parts for bonding or sealing, Plastic Cleaner can be an integral part of the process. As a highly effective cleaner, it is perfect for cleaning the bonding surface which allows for greater adhesive performance.

Key Specifications

Colour	Transparent / Clear
Smell	Citrus
Food Grade	No

Plastic Cleaner Size and Info.
