

# Ramie and Flax Marine Packing Style 921 Quick Reference Guide

## Overview

Ramie and Flax Marine Packing Style 921 is an economical, general purpose style of compression packing.

This type is able to be used in both pump and valve sealing applications and is highly flexible yet dense and long lasting.

It's made in the USA from a combination of flax and ramie fibres which are thoroughly impregnated with a proprietary tallow and wax lubricant.

The result is a low cost packing which creates long lasting seals with low friction. Ramie and Flax Marine Packing Style 921 can be used in temperatures up to 104°C and has excellent resistance to cold water, sea water and cold oils.

Typical applications include...

- Gland and stuffing box sealing.
- Rudder post, stern bearing sealing.
- Water pump seals.
- General-purpose pump and valve seals.

## Key Specifications

Base Fibre	Ramie & Flax
Lubricant	Tallow & Wax
Braid	Plait
Shaft Speed Rating	6 MPS
Pressure Rating	10 BAR
Temperature Rating	104°C
pH Range	5-9 pH
