

# Sealant and Adhesive Remover Spray

## Quick Reference Guide

### Overview

Our Sealant and Adhesive Remover Spray is a powerful solvent-based cleaning spray manufactured by Weicon in Germany. This spray is used to remove old, hardened and caked on adhesive residues from all kinds of surfaces.

It is fast acting, very powerful and extremely versatile. It can be sprayed in all directions (even overhead) and can be used on all kinds of surfaces.

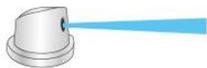

This solvent spray should not be used on sensitive plastics such as PVC, synthetics or lino. It should also not be used on painted surfaces when you want the paint to remain as it has a habit of taking off paint and lacquer too.

This spray is often used as a paint stripper for wood restoration work. It works with all kinds of adhesives including elastic adhesives, superglues, thread lockers and more.

### Key Specifications
