

Surface Cleaner Spray Quick Reference Guide

Overview

Surface Cleaner Spray is a general-purpose, industrial-grade cleaner used for all kinds of cleaning work.

Manufactured in Germany by Weicon, this cleaner is able to be used on metal, glass and ceramics as well as all but the most sensitive of plastics. It is perfect for cleaning and degreasing surfaces before the application of adhesives, sealants or paints.

Surface Cleaner Spray is a fast-acting cleaner that will evaporate away without leaving behind any residues.

This feature makes it very easy to use and a good option for cleaning parts that tend to grab cloths that would be used for mopping up cleaner residue (such as threads or rough surfaces).

Key Specifications

Colour	Transparent / Clear
Smell	Solvent
