

Overview

Tadpole Tape is a specialised hybrid product designed for sealing around oven, boiler and furnace doors and access-points. It consists of a bulb and tail which allows it to both seal and be affixed to the door frame.

The Tadpole Tape featured on this page is manufactured from Fibreglass Rope and Tape. Consequently, it offers the same insulation capabilities as those products.

This means it can handle temperatures up to 538°C, has excellent physical strength, and is tough, durable and very long lasting.

All of our Tadpole Tapes are manufactured in house and are available by the metre.

Key Specifications

Temperature Resistance	538°C
Colour	Brown
Rope Seal Density	Medium

Fibreglass Tadpole Tape with Firm Bulk Materials.

Tape Used: Premium Grade, Heat Treated Thermoglass Fibreglass Tape. Highly flexible, extremely strong and able to withstand temperatures up to 540°C. Heat Treatment helps burn off any excess fibres and increasing ease of handling.

Bulb Material: Medium Density Fibreglass Braided Rope. Withstands temperatures to 538°C and exhibits excellent compressibility and recovery for good, long-term sealing performance.

Stitching Used: High temperature, high strength thread.

Other Sizes, Styles and Constructions of Tadpole Tape.

All the sizes of Tadpole Door Seal Tape listed on the next page are manufactured in-house. Consequently, we are pleased to offer a full range of custom sizes and/or different material combinations depending on your applications requirements.

Available options include ultra high-temperature configurations (made from Refrasil or Ceramic), tadpole tape with a silicone rubber bulb, silicone coated fibreglass tadpole tape and many, many more.

For more information on any, please do contact us.

Tadpole, Door Seal Fibreglass Tape Sizes.
