

Overview

Our Wood Fire Stove and Heater Door Sealing Kits have been put together to give you everything you need to replace and old rope door seal.

Each kit contains either a 2 or 5 metre length of our industrial-quality fibreglass rope seal and either a 85ml squeeze tube (2 metre kits) or a 310ml cartridge (5 metre kits) of professional-grade RTV high-temp silicone.

Each component has been specially chosen to provide excellent performance, high temp resistance and long life.

The rope is made in the USA and is trusted around the world for demanding industrial insulation and sealing applications. The silicone is made in Germany and offers outstanding resistance to temperature (280°C) and excellent adhesion.

Fibreglass Rope

Colour	White
Density	High
Temperature Rating	538°C

HT300 Silicone

Colour	Red
Skin-Over Time	12 Minutes
Temperature Rating	-50°C to +280°C
Elongation at Break	500%
