

### Overview

Wood Repair Stick is a fast and easy way to make permanent repairs to all kinds of wooden objects and surfaces.

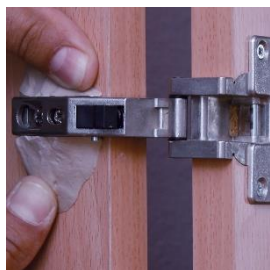

This type bonds well to all kinds of wood (including MDF, plywood, oak, balsa, spruce and beech) and can be easily shaped by hand.

Using Weicon Wood Repair Sticks is simple, cut off the amount you want, knead and apply. They've been specially designed to have a density close to wood and even float.

They'll cure with very little shrinkage and are the perfect solution for quick repairs and patches to cracks, holes, gaps and broken off parts.

Typical applications include:

- Fixing broken parts on wooden toys, furniture and objects.
- Filling unwanted holes.
- Repairs to wooden picture frames.
- Filling gaps between boards.
- Sealing around balustrades, skirts and joinery.
- Cabinet making.
- Model making and more.

### Key Specifications
