Overview

Vidaflex SD550 Silicone Coated Fibreglass Sleeving has long been the industry standard for high temperature insulation sleeves.

Manufactured from a fibreglass inner with a solid insulation outer layer, this sleeving is extremely flexible, able to withstand applications to 200°C and has very good electrical properties.

Used for a variety of applications including...

- Protection & insulation of leads & wires on Class H electric motors.
- Insulating and protecting cables in transformers.
- Protecting cables & wires in the automotive & heavy transport sectors.
- As an insulating tube in electronics manufacture and the HVAC sector.
